

Free Internet-Enabled Photo ID Software For Small Organizations.

ASURE iID™

Connect

Asure ID Connect™ is the revolutionary FREE photo ID software that allows organizations to easily design their own photo ID cards and have them securely sent via the Internet to an Asure ID Card Service Bureau in a “ready to print” format.

In Just A Few Steps, Anyone Can Produce Affordable, Professional Photo ID Cards.

Step 1: Pop In The CD

Place the Asure ID Connect CD into any computer with a connection to the Internet.

Step 2: Install And Quickly Learn To Use The Software

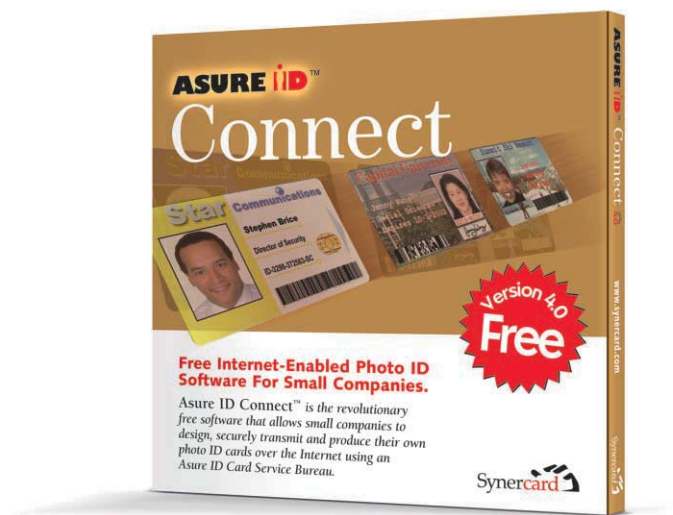

Follow the simple steps in the QuickStart Guide provided with Asure ID Connect which shows you how to quickly install the software, design a photo ID card template, easily enter data and capture the photographs of your card holders.

Step 3: Choose Your Asure ID Card Service Bureau

In the ‘Admin Center’ module, enter the IP address (example: 209.146.244.66) or URL (example: www.yourcardbureau.com) of your Asure ID Card Service Bureau. Address information can be found on the back of your Asure ID Connect package.

Step 4: Select And Send Your Cards

In the ‘Data Entry Center’ module, select the cards you would like to have printed and press the ‘Send Card’ button. Your Asure ID Card Service Bureau will instantly receive your cards in a “ready to print” format and will ship you the finished cards using the method you prefer.

Asure ID Connect™ is part of the Asure ID Family Of Products™ which offers a complete line of Internet enabled photo ID software products that are simple to learn, more powerful, loaded with useful features and flexible enough to improve the issuance of photo ID cards for virtually any size and any kind of enterprise.

Free Internet-Enabled Photo ID Software For Small Organizations.

ASURE ID™

Connect

Affordable For Any Size Of Company.

Until Asure ID Connect, smaller organizations were unable to justify the cost of using photo ID cards. Now with free software and a “pay as you print” approach to photo ID cards, any company can implement a card program.

Simple To Learn, A Breeze To Use.

A simple user interface and easy drag and drop design tools ensure that professional looking cards with customized backgrounds and logos can be produced by anyone, with even minimal software experience.

Big Security For Small Companies.

Asure ID Connect puts the ability to produce photo ID cards in the hands of all organizations and contributes to more effective security systems. It can also open up a long list of other card application possibilities.
